

**Pricelist**  
**1st July 2024 (UK £)**

Part No	Model	Price
VCL1	VClock Lite Edition	£150.00
VCL2	Additional licenses (purchased at the same for the same site)	£120.00
	User configurable clock for a radio studio. VClock Lite enables only the clock face, no lamps.	
VCS1	VClock Standard Edition	£225.00
VCS2	Additional licenses (purchased at the same for the same site)	£180.00
	User configurable clock and lamp solution for a radio studio, which can interface with a range of different equipment via HTTP Post, Serial, GPI, SNMP, IP as well as consoles such as Axia, DHD, Lawo and Wheatstone. VClock Standard enables full support for controlling up to 32 lamps.	
VCP1	VClock Plus Edition	£340.00
VCP2	Additional licenses (purchased at the same for the same site)	£272.00
	User configurable clock and lamp solution for a radio studio, with all the features of the Standard Edition. VClock Plus adds the ability for VClock to control other equipment (such as GPO and IP outputs, Livewire GPIO and Wheatstone SLIO).	
VM1	VMeters	£170.00
VM2	Additional licenses (purchased at the same for the same site)	£136.00
	Audio level meters that can read levels from audio cards, TieLine and ProntoNet codecs, Axia XNodes/Mix Engines and Wheatstone Blades. It then broadcasts the level information in small data packets for remote VMeters to display in real time. They can also alert silences by means of email or a http post to VClock.	
VS1	VScroll	£150
VS2	Additional licenses (purchased at the same for the same site)	£120
	Scrolling ticker-tape text and graphics with the ability to read the data from RSS feeds, Facebook, Twitter and local text files.	
VD1	Voceware Licensing Dongle	£40.00
	Licensing Dongle for use with Voceware Software (file-based licences are assigned to physical machines and are non-transferable. Dongle licences can be moved between machines). (plus P&P)	
VA1	Administration Fee	£50.00
	Administration Fee for any licence file regeneration, agreed licence transfer, etc
